

## Q-Pulse Tip- Q-Pulse CA/PA Wizard Creation- Automatic Fields

### Q-Pulse CA/PA Wizard Creation – Automatic Fields

When creating a CA/PA Wizard, we always want a couple items to be completed. One is Recorded By and the other is Raised Date. Recorded By will automatically capture the user who entered the new CA/PA (incidentally, this is whether via Wizard or Template). These are both automatic fields and will always be captured, whether they are in the wizard or not. This allows you to save some room in your wizard since the information is automatically captured.

If you ever want to see who Recorded a CA/PA Record, just go to the CA/PA List View and Select Columns (either right click in the column heading or under the View menu).

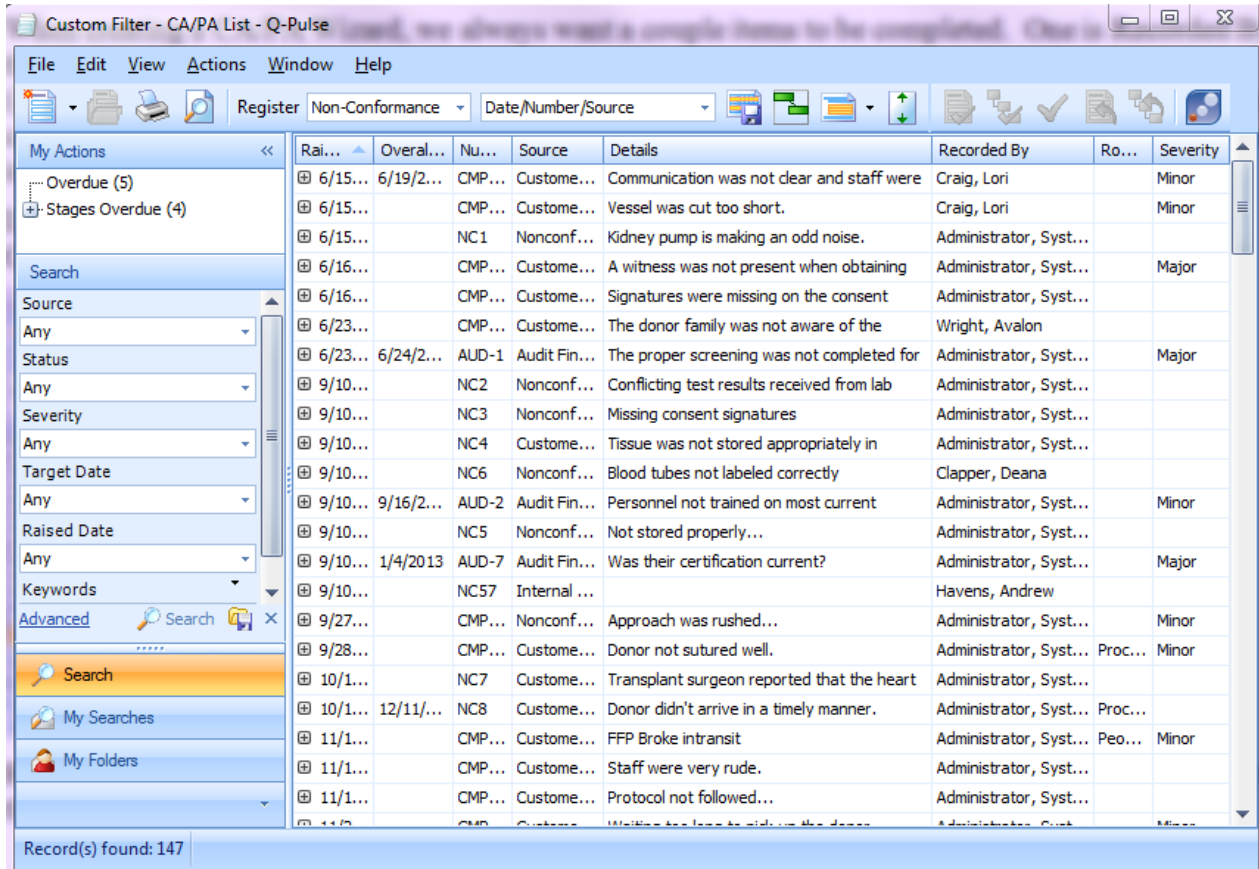

The screenshot shows the 'Custom Filter - CA/PA List - Q-Pulse' window. The main table displays a list of records with columns: Number, Details, Status, Overall Target, and Severity. A dialog box titled 'Drag-and-drop columns to the grid' is open, listing various fields that can be added to the table view. The fields listed in the dialog are:

- Raised Against Department
- Raised Against Supplier
- Raised By (Person or Customer)
- Raised By Person
- Raised Date
- Reaction Time
- Recorded By
- Resolution
- Root Cause
- Service
- Source
- Staff Involved
- Staff Involved

The table data includes records like AUD-1 through AUD-4, and CMLT-2 through CMLT-5. The status of records varies between Open and Pending. The severity levels range from Major to Minor. The overall target dates range from 6/24/2011 to 10/26/2013. The severity levels are Major, Minor, and 0. The overall target dates are 6/24/2011, 9/16/2011, 7/20/2012, 10/16/2012, 12/7/2012, 12/7/2012, 1/4/2013, 2/1/2013, 4/16/2013, 5/31/2013, 5/31/2013, 10/26/2013, 0, 12/6/2011, FDA, 12/6/2011, 9/30/2012, 10/1/2012, 2/8/2013, 6/19/2011, and 6/19/2011. The severity levels are Major, Minor, and Minor.

Recorded By is listed, and can be dragged and dropped into the List View columns, which will show who started that Record.

Rai...	Overall...	Nu...	Source	Details	Recorded By	Ro...	Severity
6/15...	6/19/2...	CMP...	Custome...	Communication was not clear and staff were	Craig, Lori		Minor
